

4 Spherical Dome Shaped Tents were built in the wilderness of the mountains

When it comes to outdoor travel accommodation -- camping . Nowadays, it has become more and more a fashion way for people who have lived in the city for a holiday. Find a good weather, meet good friends, set up colorful tents in the wild, see the pure sunrise and sunset. In order to blend in with nature and make people enjoy the comfort of a 5-star hotel, a semi-permanent tent hotel was born. BDiR Inc. built 4 geodesic dome shaped luxury tents in the wild mountains of Dali, Yunnan.

The 4 spherical dome tent hotels are located in Dali Town. Dali Town is picturesque all year round. Among the many scenic spots, the wind, flowers, snow and moon are the most famous and fascinating. Therefore, four hemisphere dome tent lodges were named by wind, flower, snow and moon. On the left side of the dome tent is Cangshan, and on the right is the Bohai Sea. You can enjoy the view without leaving the house in the star-gazing tent. The spherical dome tent hotel has a strong mountain style, which features

luxurious interiors and intricate details. It makes guests to return to the era of abundance in ancient mountains.

The geodesic dome tent frame uses high-strength Q235 steel, which with high strength, anti-seismic and anti-typhoon, anti-corrosion and anti-cracking deformation. Dome tent lodges roof used PVC/PVDF fabric membrane, fireproof and thermal insulation. All made of new environmentally friendly materials, meet the international standard fire level, full-featured moisture-proof sound insulation, no air Pollution. In addition to the solid tent roof, the designer uses a large number of transparent walls to create a feeling of integration with nature. Lying on the bed and covering the quilt, visitors can see the stars in the sky from tent lodges. The spherical star-gazing hotel tents allow you to experience the ultimate wildness outdoors!

Technical advantages:

Tent roof used PVC/PVDF fabric membrane, fireproof and thermal insulation rock wool board, OSB board, waterproof coiled fiberglass tile, all made of new environmentally friendly materials, which meets the international standard fire level, full-featured moisture-proof sound insulation, no air Pollution. In addition

to the solid tent top, the designer uses a large number of transparent walls to create a feeling of integration with nature.

Reviews:

BDiR's spherical dome tents have a unique shape, strong internal structure, complete facilities, and high quality accommodation experience, which is very popular among campers. Luxury quality, ingenuity to build!
